Their Mountainside *Retreat*

Continued inside...

This 5,042 square foot home boasts 4 bedrooms, 6 baths, a basement apartment for guests and an outdoor kitchen & living space.

Our *Family's* Pride Built Into Your *Family's* Home

When Beaver Mountain Log & Cedar Homes was created in 1982, we built our business on a foundation of strong family values and a passion for custom-built homes. We focus on helping to design, create, produce and build the premier custom-crafted cedar, log & timber homes in the Northeast. Our plan was not to be the biggest, just the best.

A tradition of craftsmanship for 3 generations, spanning more than 70 years, we have a commitment to excellence and build homes that you and your family can be proud of. Our family values influence our entire company with our pledge to always “do the right thing” and to provide outstanding customer service.

Today we are proud to have over 2,000 happy homeowners and clients who are part of the Beaver Mountain Family. Many of those relationships last long after the move-in date. Over 50% of our business each year is from referrals and we're extremely proud of that fact. We're looking forward to welcoming you to the family!

- **Our Mission is to help deliver and enjoyable home building experience by providing expert guidance and outstanding customer service.**
- **Our Vision is to create exceptional custom-crafted cedar, log & timber homes for discerning home owners.**

Beaver Mountain designers work with you to create the home of your dreams. That might include an outdoor living space like this one, a guest house behind the main house, or even an arcade or theater room. From timber frame escapes to cozy log cabins, there's no limit to what we can help you design!
